It Will Pay You to Know How the Hecht Stores Sell Pianos

If you've had experience with the method of piano selling in force in the exclusive piano stores you'll all the more appreciate the plan that is bringing such a big volume of business to this piano department. The method here is to sell the piano for as little as possible to begin with; to send it on trial in your own home before you buy, so that you can feel perfectly satisfied that it is the instrument you wish; to sell it to you, should you find that it fills every requirement, without your having to pay a penny cash, and only the smallest sums at future stated intervals. The fact that no piano store in Washington ever made such an offer, an offer so obviously fair and liberal, explains why this store is doing the piano business of Washington, and will continue to do it. Honestly, don't you think it will pay you to look into the matter?

**A Famous "Comstock" Piano—
